Forecast For Grampian
Issued by Met Office Aberdeen
at 0400 on Tuesday 02 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry to start, rain, sleet and snow later.

Today:
After a largely dry and fine start to the day it will turn increasingly cloudy from the south into the afternoon with outbreaks of rain, near the coast, sleet and snow across the region. Feeling cold in the easterly winds. Maximum temperature 4 deg C (39 deg F).

Tonight:
We will continue to see outbreaks of sleet and snow through this evening and overnight, with the best chance of drier and clearer conditions along the north coast. Minimum temperature -2 deg C (28 deg F).

Wednesday:
Further outbreaks of sleet and snow will affect the region through tomorrow, with largely cloudy skies. Feeling cold. Maximum temperature 2 deg C (36 deg F).

Outlook for Thursday to Saturday:
Rain, sleet and snow will continue to feed in across the region over the coming days, turning more showery later on Saturday. Feeling cold in easterly winds.
